AMPEX

September 26-27
Huntsville, AL

We've Reached an Exciting Milestone!

[Delta Information Systems, Inc.](#) is honored to be included on the Inc. 5000 list of **fastest-growing privately held companies in the United States**. It is an exclusive list reserved for companies like GoPro, Fitbit, Microsoft, and other notable winners.

[Inc. Magazine](#) features content about and for entrepreneurs, small businesses, and privately held companies. The list is ranked according to percentage revenue growth over a four-year period. To qualify, companies must have been founded and generating revenue by the first week of the starting calendar year, and therefore able to show four full calendar years of sales. Additionally, they have to be U.S.-based, privately held, and independent.

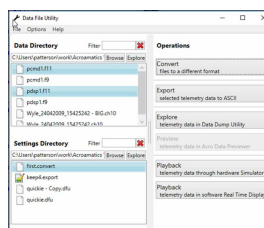

"With nearly 6-million private companies in the U.S., to say we're honored is an understatement. This is the result of our enthusiastic team, our loyal customers, and continuous process improvements to assure that our products meet demanding requirements" said Gary Thom, President of Delta Information Systems, Inc.

Looking to More Effectively Mine, Develop & Deliver Mission Telemetry Results to Customers?

Acroamatics provides an array of real-time and post mission telemetry decom and EU test data file discovery, playback, analysis, conversion and export tools with a graphical user interface (GUI) that allows for easy setup and initiation of a desired output data process.

Acroamatics' new **Data File Utility** user interface is just one of many new and improved telemetry system tools added to the core Acroamatics Telemetry Systems Software Suite (ATSS) to provide enhanced user access to a variety of conversion and user data output capabilities supported within Acroamatics' industry leading real-time Telemetry Data Processing (TDP) low latency card embedded programmable processing architecture.

Export (and import) of native PCM Chapter 10 recording files are supported, along with a range of extraction and processing tools enabling the export of select tagged decom measurement, derived EU converted parameters, or a time series coherent amalgamation of those mission critical telemetry data measurement benchmarks.

Ampex Japan Ltd. Awarded ISO 9001:2015 Certification

[Ampex Japan Ltd.](#) is pleased to announce the successful audit and continued certification of its Quality Management System by QA International Certificates Ltd. and is in compliance with the latest version of the ISO 9001:2015 Quality Management System Standard. [View the certificate here.](#)

A Great Day for a Great Cause!

[Delta Digital Video](#) and its distributor [Elotek Systems Inc.](#), were proud to sponsor Sierra Nevada Corporation's [Road Warrior Foundation](#) Fundraising Golf Tournament held on July 13, 2018.

The light-hearted golf tournament brings together colleagues, friends and family members to begin a three-day weekend of fun while supporting a worthwhile charitable group.
